Free Water-Saving Nozzles For Riverside Water Customers

Riverside, Calif. –The city of Riverside's water providers have once again teamed up with local irrigation manufacturer The Toro Company to offer free Toro Precision Series Spray Nozzles to Riverside water customers via the website *FreeSprinklerNozzles.com* starting March 1.

While supplies last, Riverside Public Utilities (RPU) and Western Municipal Water District (WMWD) water customers can log on to *FreeSprinklerNozzles.com*, enter their account information, and receive vouchers good for free Precision Series Spray Nozzles redeemable at one of three participating Riverside irrigation retailers.

The website provides step-by-step instructions on how to retrofit older high water use sprinkler nozzles with Precision Series Nozzles, which use up to 20% less water per sprinkler without adjusting sprinkler controllers or run times.

Residential customers will receive a voucher good for up to 25 free nozzles, while commercial customers can receive up to 100 nozzles. Customers can redeem their voucher at one of these Riverside retailers: Bonnett Irrigation, 3230 Madison Street; Ewing Irrigation, 6479 Box Springs Boulevard; and John Deere Landscapes, 2656 Market Street.

The two water agencies hope to distribute more than 125,000 water-saving Precision Series Nozzles in Riverside through this year's program. For additional information about this and other water conservation programs offered in Riverside visit: *RiversidePublicUtilities.com*

###

Established in 1895, Riverside Public Utilities is a consumer-owned water and electric utility governed by a board of nine community volunteers that provides high quality, reliable services to over 106,000 metered electric customers and 64,000 metered water customers throughout the City of Riverside. The Utility is committed to increased use of renewable energy resources and sustainable living practices that help reduce environmental impacts within the City of Riverside and the state of California.
